

## eSpring™ Water Treatment System Mini Demonstrable Model: the Ultimate Tool for Your Business Success

We're excited to announce the arrival of Mini Demo Version of **eSpring™ Water Treatment System Mini Model** as a saleable SKU.

Starting from **28<sup>th</sup> April**, take advantage of this ultimate demonstration tool to boost your business!

### The mini that makes a big impact

Sleek, compact, and easy to assemble, the eSpring Water Treatment System Mini Demonstrable Model is designed to replicate the key components of the new eSpring with impressive detail.

Showcase the system's technology and design simply and hands-on. Meet customers at home, on the go, or present at events. This lightweight model helps you tell the eSpring story clearly and confidently, all without needing a sink. Purpose-built for demonstration, this model requires no sink or water connection - so you can effortlessly deliver a clear, visual explanation of the eSpring technology anytime, anywhere.

#### Specifications:

- Dimensions: 18.15cm (L) x 7.65cm (W) x 13.35cm (H)
- Weight: 250g
- Requires three (3) AG13 button-cell batteries (included)
- Does not connect to the Amway Healthy Home App

## Educate, share and grow your business

Now's your moment to lead with innovation. Use this remarkable demonstration tool to showcase **eSpring's unique water treatment technology** and exceptional craftsmanship to your community. Let them see and try for themselves and **easily turn their interest into real conversations**.

## Be ready to welcome eSpring's ultimate business tool

Mark your calendar: the official launch of the eSpring™ Water Treatment System Mini Demonstrable Model is planned for **28th April 2026**.
